

tigerflex® FS-BLK™ Series **PVC Suction Hose**

FEATURES AND ADVANTAGES

- **Full-flow coupling** – Perfect for applications demanding maximum water flow.
- **Better coupling retention** – Permanently attached with no coupling separation.
- **Leak resistant** – No leaks from coupling.
- **Low maintenance** – No need to check for torque and fit, unlike clamp style couplings.
- **High durability** – Coupling resists cracking and rust.
- **More efficient drafting** – KFP's full-flow couplings provide an unrestricted waterway that is 10% larger than standard shank couplings, resulting in up to 35% more flow.
